# Our Community Our Commitment

First and foremost, our hearts go out to anyone who's been impacted by the Coronavirus in Jackson County. This epidemic has affected all of our families, businesses, and the normality of what was once, **our way of life.**

However, while all of our businesses are wading in uncharted waters, we will continue to take a positive approach and hit the pandemic of COVID-19 head on until it's defeated.

One of the ways we are contributing is by providing PPE that will help the communities stay safe where we live and work.

With that being stated, enclosed, in a sealed card board box is 2000 surgical mask to be distributed as necessary to help protect the citizens of Jackson County.

In closing, we're confident that working together and protecting each other will end the spreading of this disease and **"we will persevere"**!

## Derwin and The GAC Team!
